Pensando no futuro e no meio ambiente, as nossas águas apostam em garrafas 25% PET, apelando sempre para o facto do seu plástico ser **100% Reciclável**. Somos pioneiros nesta inovação, adotando um conceito **Ecogreen**, promovendo o nosso “Ciclo de Reciclagem Sempre”.

Esperamos que para o futuro, as nossas garrafas sejam **100% R.PET**.

HOPE

Since 1984, this water comes directly from the mountain spring to the bottle in its purest form. It was **awarded** one of the best spring waters for being **pure, crystal clear** and of **superior quality**.

The pH of our water is the most balanced in the market, since it is the closest to the **neutral value – 7**. Furthermore, our organism tries to maintain the pH of blood stable, close to 7.

Keeping the environment and the future in mind, our bottles of water are 25% PET and **100% recyclable**. We are pioneers in this innovation, which reflects the **Ecogreen** concept that we adopted and promotes our “Always Recycling Cycle”. We hope that in the future our bottles will be made from **100% recycled PET**.
